The State Of Appreciation

In the cryptocurrency world, a world that is ever changing, conversations at times can become. . very passionate.

The atmosphere can get pretty tense and a certain amount of "fun" can seem to be missing.

ATG aims to change this.

The beginnings of ATG were simply the test of an idea, a dream. The idea that fun can still exist despite passionate discourse.

ATG is an "**appreciation**" token, meaning that someone posts something, and if it is worthy of recognition, they are given ATG as that token of appreciation or a tip.

ATG ADDICTED TO GWOP

See content that makes you think, laugh or is VERY interesting? Send them a bit of ATG with very simple commands!

Now on Twitter, Telegram, Twitch and dlive with more coming!

"ATG is a social mechanism that allows you to say to another human being, "Hey... I like your stuff, your content fulfills me in some way."and be able to act and show the love with sending ATG.

- Rwondaz

The question is this:

"Would cryptocurrency enthusiasts be more willing to show appreciation to others, by tipping each other a token that was NOT a main currency yet is fun and interactive?"

The resounding answer as we found to be is "YES!"

What resulted almost immediately after launch, was nothing short of amazing.

People loved ATG!

In no time at all, ATG was being sent between Many users and being sent in many telegram groups such as: ATGcommunity.

Spice SLP TOKEN
On the Bitcoin Cash
SLP Protocol

ATG IS AN APPRECIATION TOKEN.

Built on the **Simple Ledger Protocol** (SLP), ATG is an appreciation token for the Bitcoin Cash blockchain, a decentralized cryptocurrency with lightning fast transactions.

No mere token, ATG is also part of a larger Social Tipping Platform.

By utilizing ATG_Bot, ATG works with services such as Telegram, and ATG' database which captures all tipped content and aggregates it into an overview of the hottest content happening across multiple social networks.

1M Total ATG will ever exist.

0.00001 ATG is known as **1 Atoshi**
